

Previously Announced Temporary Change in Ramp Service between Chicago, IL and Salt Lake City, UT is Now Permanent

Dear Valued Customer,

As announced in the September 26, 2008 Stack Facts #1082 traffic originating in Chicago, IL destined to Salt Lake City, UT was temporarily going to be served via the UPRR Canal Street ramp instead of Global 1 due to a major track maintenance project west of Chicago. Originally, this change was only going to be effective until October 22, 2008. However, effectively immediately, this ramp change is being made permanent. In addition, the temporary cutoff change to 1700 has been made permanent. Customers can continue to submit billing as in the past.

If you have any questions regarding this announcement, please consult your Pacer Stacktrain Business Development or Pricing Representative.

We appreciate your business.
