

## PACER STACKTRAIN NEWS ALERT

October 3, 2000

Electronic Bulletin No. 111

### **REVISED EMPTY CAPACITY PROGRAM FOR SOUTHERN CALIFORNIA**

Please refer to Stack Facts bulletins **#106** dated 9-26 and **#101** dated 9-11 concerning Pacer Stacktrains empty capacity program for Southern California. Due to increased costs of supplying incremental capacity to this market we are raising the charge for an empty container **effective Monday Oct 9**. The charge, effective on this date, will be **\$425** as originally announced on 9-11. All current, as well as future capacity in Los Angeles will be offered under this program through the existing reservation process (**refer to bulletin #101 for details**). Pacer will offer to the IMC this capacity on wheels at either Becker Yard or Container Care.

We will continue to review our options to supply capacity to this market as demand warrants. In this regard, this cost is subject to change in the future and we will provide a one-day advance notice of the effective date of changes in this cost.
