

PACER STACKTRAIN

NEWS ALERT

January 16, 2001
Electronic Bulletin No. 144

Union Pacific Railroad Track Maintenance Projects

To our valued Stacktrain customers:

In an effort to improve overall service, and to insure continued long-term improvement in the quality of our service, the Union Pacific has implemented major track work projects effective immediately until March 15, 2001. This track work maintenance "blitz" is scheduled in January, February and March when intermodal volumes are historically at their lowest.

Pacer Stacktrain services operating in the below listed service lanes will be detained due to the capital improvement projects. Please expect between 4 and 12-hour delays of availability between the following origins and destinations as a result until March 15, 2001.

Between City of Industry and Chicago, along with all Northeastern destinations. The Los Angeles basin and Memphis, Dallas, Houston, Atlanta, Charlotte, Jacksonville, Savannah and Miami. Also between the Los Angeles basin and St. Louis and Kansas City. Finally, between Northern California and Texas.

We apologize for this short notice and we thank you for your continued support of the Pacer Stacktrain network.
