Electronic Bulletin No. 205

CSX Major Track Work Project Between New Orleans and Atlanta

Dear Valued Stacktrain Customer:

In the effort to insure continued long-term quality of our service between New Orleans and Atlanta, the CSX Railroad will initiate a major track rehabilitation project installing new rail and ties on this portion of our network from Monday, July 2, 2001 through Friday, July 6, 2001.

We have worked with the CSX to avoid any excessive delays as a result of this rehabilitation. Services operating between the West Coast, Atlanta and other Southeast points will be detoured via the NSRR between New Orleans and Atlanta and are scheduled to incur little or no delay to their current advertised availability. Regular use of CSX Rail Terminal Facilities will continue during this week of detouring via NS.

Your cooperation and continued support of our network is very much appreciated.

Have a Safe Independence Day Holiday!!
