

# PACER STACKTRAIN

NEWS ALERT

October 31, 2001  
Electronic Bulletin No. 242

## ***10 DIGIT LOCAL DIALING IN THE KEARNY/NY/NJ AREA***

To Pacer Stacktrain Customers:

This notice is to advise you that New Jersey is experiencing overflows in some area codes. They will initiate area code "overlays" which means that more than one area code will be used for one geographical area.

After December 1, 2001, for all local calls, the area code will need to be dialed as a prefix to the local number.

Please advise all appropriate personnel of this announcement to ensure that your local phone records are updated prior to the cut off date.
