

PACER STACKTRAIN

NEWS ALERT

December 5, 2001
Electronic Bulletin No. 259

Pacer Stacktrain Rescinds Fuel Surcharge:

Effective 12/17/2001 Pacet Stacktrain is rescinding the fuel surcharge. The fuel surcharge has been a challenge for us, our customers, and your customers. We appreciate your support throughout this twenty month period. Although the formula that we have used throughout this period of time still indicates that we should be at 1.1%, our customer base and our competition dictates that we rescind the FSC.

These are dynamic times and a difficult time in which to predict the future. As a result we reserve the right to reinstitute the FSC if the marketplace dictates.

Again, thank you for your support and best wishes for a positive conclusion to a tumultuous year.

Peter Ruotsi
