

PACER STACKTRAIN

NEWS ALERT

July 3, 2002

Electronic Bulletin No. 311

EMPTY CAPACITY PROGRAM FOR SOUTHERN CALIFORNIA

Due to the exceptionally strong demand in Southern California, we will institute our Empty Capacity Program in an effort to meet as many of the capacity needs during this period as we possibly can.

Effective, Monday July 8th, Pacer Stacktrain will implement our Empty Capacity Program for Southern California. All current, as well as future capacity in Los Angeles, will be offered under this program through the existing reservation process. Pacer will offer to the IMC this capacity on wheels at either Becker Yard or at one of the LA Rail Facilities. Pacer Stacktrain will offer this available capacity to the IMC at a cost of \$350 per container regardless of size. This cost is subject to change without notice. Pacer Stacktrain will move available empty equipment from surplus locations to help support the demand and will continue as long as the demand warrants. There is no guarantee or capacity commitment, as the program will be driven based on available capacity. Billing of this equipment will be done weekly and will be based upon boxes actually pulled out against the container release number provided by our dispatch group from the fax authorization. Customers wishing to utilize their PERC credits may do so and priority will be given to those customers utilizing the PERC credits for allocation purposes.

If you would like additional information on this program to support your equipment need please contact:

Yesenia Diaz , Eva Wong or Mark Papac at (866) 619-0962
