RE: Temporary Cut off Change at Chicago IMX

---

To Our Valued Customers:

Due to a major tie and rail project on the Union Pacific Railroad between Dalhart, TX and El Paso, TX, the cut-off time for volume tendered at Chicago IMX for City of Industry has been temporarily changed from 1900 to 1700.

This change will be in effect starting on Monday, January 13, 2003 until Monday, March 10, 2003. The temporary change in cut-off time will allow for an earlier departure from Chicago IMX and permit the CHCI train to get through the effected area before the main track has to be taken out of service.

This track work project on the UP is necessary to insure the long term and continued improvement in the quality of our service supporting your business.

Any questions regarding this temporary change can be addressed with your local Pacer Sales or Customer Support Representative.

Thank you for choosing Pacer Stacktrain.
