**Re: CSX Intermodal Opens New Detroit Terminal**

---

CSX Intermodal's new Detroit terminal is opening Thursday, August 5th at 18:30 EDT. The new terminal is located at 6750 Dix Avenue and is within one mile of CSXI's current terminal location. Directions to the facility and phone number contacts are detailed below.

The last trains to depart from the old facility will be the Q131-05 with a Thursday evening Gate Cut Off for loads going to Salem, IL for further interchange to the UP and the Q150-06 which has a Thursday evening Gate Cut Off for loads going to various destinations via Cleveland, OH and departs early Friday morning. The first trains to depart from the new facility will be the Q131-06 on Friday night and the Q151-07 with a Friday night Gate Cut Off and an early Saturday departure.

Inbound to Detroit, the first two trains due to arrive are the Q132-06 on Saturday, August 7th and the Q151-07 on Sunday, August 8th. Units that arrive prior to those trains and are grounded at the old facility will continue to be made available at that facility until further notice. CSXI does not plan to transfer units that have already unloaded and notified to the new facility. CSXI will operate gates at both terminals for some period of time.

Features of the new facility are:

- Improved lighting
- 6 access gates (versus 2 at the current facility)
- Gate talkback system
- 3 processing tracks with a total of 8,200' of track space which will allow trains to proceed directly to processing tracks upon arrival
- Container stacking capabilities adjacent to the processing pad which will allow for a more efficient live lift operation

Terminal Directions and Information:

**Address:**

CSX Intermodal, Inc.  
6750 Dix Avenue  
Detroit, MI 48209

Phone: 313-842-3073  
Fax: 313-842-3155

Directions from the existing terminal: Turn right (south) onto Livernois Avenue and proceed to the first light, turn right on Vernor Avenue. Proceed on Vernor to the intersection of Vernor and Dix Avenue. At the intersection, turn right directly into the new facility.
