Re: 40' foot boxes being street turned in LA

To our Valued Customers and Drayman,

Please be advised pre-clearance is required in order to street turn 40' equipment in Los Angeles for reloading to Portland and Seattle. Some equipment suppliers do not allow termination in Portland or Seattle and therefore may require a termination in Los Angeles.

We would request Pacer Customers or their drayage company representatives to get clearance prior to reloading these units by calling the Pacer Stacktrain office in Orange.
